

Advanced Sales Guide

Everything a new salesperson needs to sell the core offering: the Advanced managed AI receptionist – who it’s for, what’s included, what it costs, bolt-ons, and how to close without getting lost in technology.

\$699 MONTHLY ADVANCED	\$1,500 SETUP (DISCOUNTABLE)	500+500 MIN + SMS INCLUDED	\$0.40 OVERAGE EACH
--	--	--	---

Sales caution: the public site may show different minute ladders for marketing. Always quote Advanced as **500 minutes + 500 SMS**.

1. Purpose

This guide sells OwnerAI’s **initial / core offering: Advanced**. Expert / Custom (integrations) is a later conversation — not the first pitch. Keep the public website quote-led; use these numbers on sales calls and proposals.

2. One-sentence pitch

OwnerAI is a done-for-you 24/7 AI receptionist for phone-driven businesses – we build it, tune it, and watch it; you keep your number and forward the phone when you’re ready.

Emphasize **managed service**, not another DIY app the owner has to babysit.

3. Who we sell to

Beachhead: Owner-operated and multi-truck plumbing, HVAC, and electrical shops (and similar home services). Jobs come in by phone. The main number rings a cell, the owner’s spouse, or a secretary / front desk who’s only there ~40 hours a week. Missed after-hours or on-the-job calls lose real revenue.

Buyer wants: Booked work and clean summaries — not another dashboard. Secondary markets (dental, med spa, etc.) are fine to take interest; home services is the priority.

4. Who we don’t sell

Profile	What to do
Cheapest DIY AI phone shoppers	Not a fit – we’re managed, not \$49/mo software
Enterprise contact-center buyers	Refer to CSM Integrated Solutions (csmintegrated.com)
“Must integrate everything before go-live”	Offer Advanced first; Expert scoping separately
Not phone- or SMS-driven	Low ROI – pass

5. The problem (talk track)

- Missed calls on a job, after hours, weekends, or when the part-timer is out
- Voicemail that never gets returned; spam wasting time (and sometimes billed by answering services)
- Full-time receptionist often **\$2,800–\$4,500+/mo** for ~40 hours — still not 24/7
- Answering services often **\$2–\$5/min**; DIY AI puts babysitting back on the owner

Close line: If OwnerAI saves **one good job a month**, it usually pays for itself.

6. What Advanced does (plain English)

1. Answers in seconds, 24/7/365 — even with multiple callers at once
2. Trained on that shop's services, area, hours, and FAQs — English or Spanish
3. Takes proper intake (name, number, address, reason, urgency)
4. Screens spam so junk doesn't wake the owner
5. Emails and/or texts the owner a clear summary (+ transcript and recording)
6. Books on Google, Outlook, Calendly, or Cal.com when configured
7. Sends SMS confirmations / reminders so jobs don't go cold
8. Warm-transfers emergencies to the owner's cell per rules
9. Scores / qualifies leads; handles reschedule / cancel
10. Monthly optimization with our team

Customer action: Keep their number → forward when ready → turn forwarding off anytime to roll back.

7. What's included in Advanced

Answering & intake

- 24/7/365; unlimited simultaneous calls
- Keep existing number
- EN + ES auto-detect; FAQ answers
- Spam screening
- Full intake; email summary + transcript + recording

- 30-day standard retention

Booking & service

- Live calendar booking
- Mid-call texting (links, forms)
- Emergency warm transfer
- Lead qualification & scoring
- Reschedule & cancel
- Monthly optimization call
- Lead / activity reporting

8. Commercial terms (quote these)

Item	Amount
Monthly (Advanced)	\$699
Setup	\$1,500 (discountable w/ founder approval)
Included voice minutes	500 / month
Included SMS	500 / month
Overage	\$0.40 / min and / SMS

Item	Amount
Money-back	30 days on first month
Typical go-live	About 1-2 weeks

9. Bolt-ons (priced defaults)

Sell add-ons after the core pain is clear — don't lead with a menu.

Add-on	Cadence	Default
Extra language (beyond EN+ES)	Monthly	\$75 each
Extra number / location	Monthly	\$100 each
Dedicated Spanish line	Monthly	\$150
Website chat + text widget	Monthly	\$75
Extra minutes (400-min block)	Monthly	\$140
Extra concurrency line	Monthly	\$25
Custom cloned voice	One-time	\$750
Voice presence pack	One-time	\$150
A2P 10DLC registration (US SMS)	One-time	\$199
HIPAA compliance pack	Monthly	\$199
Verified phone number	Monthly	\$25
Verified number setup	One-time	\$25
Branded Caller ID (US)	Per outbound	\$0.25
Extra retention (+30 days)	Monthly	\$15
Extra retention (1-year archive)	Yearly	\$120
Extra retention (7-year archive)	One-time	\$600
Post-call analysis	Monthly	\$99
Custom analytics dashboard	Monthly	\$99
Expedited alerting	Monthly	\$49
Extra optimization sprint	One-time	\$250
Priority support / named CSM	Monthly	\$300
Go-live / number port white-glove	One-time	\$500

Quote only (do not invent a fixed price): Extra CRM/FSM integration, outbound campaign pack, custom telephony / SIP, SIP header customization, train-your-voice coaching, guardrails package. Soft upsells: AI-search visibility help; discounted custom website for active customers.

10. Expert / Custom (secondary)

Not the default close. Scoped work for CRM / field-service tools (Jobber, Housecall Pro, ServiceTitan, HubSpot, Salesforce, GoHighLevel, etc.), multi-location routing, outbound programs, heavier analytics / QA.

- Setup often **\$5,000+** after scoping
- Monthly is **custom** — founder quotes only
- Timeline often **~3–4+ weeks** after scope is clear

"Advanced gets you answering, notes, alerts, booking, and SMS without a big integration project. If you later want every call written into Jobber / ServiceTitan, that's Expert – we price it after we see how you work today."

11. Competitive positioning

Alternative	How OwnerAI wins
Hire a receptionist	Fraction of payroll; 24/7; simultaneous calls
Answering service	Richer intake, booking, owner email/SMS; spam screened
DIY AI apps	We build, monitor, and optimize – owner forwards the phone
Spouse / cell only	Owner stays on the job; still never misses a lead

Proof: Live demo at **(516) 973-1973** — not fake testimonials.

12. Discovery questions

1. Who answers when you're on a job?
2. What happens after 5pm / weekends / holidays?
3. Rough inbound calls per day / week?
4. Typical job value? Emergency vs estimate?
5. Calendar tool today?
6. OK with SMS confirmations to customers?
7. Need Spanish often?
8. What does "working" look like in 30 days?
9. Must-have software later (Jobber, etc.)? → park for Expert after Advanced

13. Demo + close path

1. Hook the pain (missed / after-hours / who's covering)
2. Send them to the live demo: call or text **(516) 973-1973**
3. Book free setup call: cal.com/owneraitools/30min
4. Close Advanced (\$699 + \$1,500 setup, 500+500, 30-day money-back)
5. Add bolt-ons only if needed
6. Park Expert integrations for a follow-up

14. Objection handling

Objection	Response
"Sounds robotic"	Call the demo – that's the product.
"We already have someone / my wife"	Covers the other 128 hours + when they're with a customer; texts you the lead.
"Too expensive"	Vs a hire or one lost job; 24/7 for less than part-time payroll.
"What if it messes up?"	Monthly tuning; forwarding off anytime; 30-day money-back.
"Talk to Jobber?"	Not in base Advanced – Expert after they trust answering.

Objection	Response
"Start with Basic?"	Recommend Advanced – booking + SMS + transfer stops cold leads.

15. Do / Don't

Do

- Lead with missed jobs + live demo
- Close Advanced by default
- Confirm volume, coverage, calendar
- Use “one saved job / month”
- Escalate Expert to founder

Don't

- Publish unapproved website prices
- Quote marketing minute ladders
- Promise CRM write-back in Advanced
- Lead with tech / vendors / models
- Discount without founder approval

16. Quick reference card
